NEW VICARE

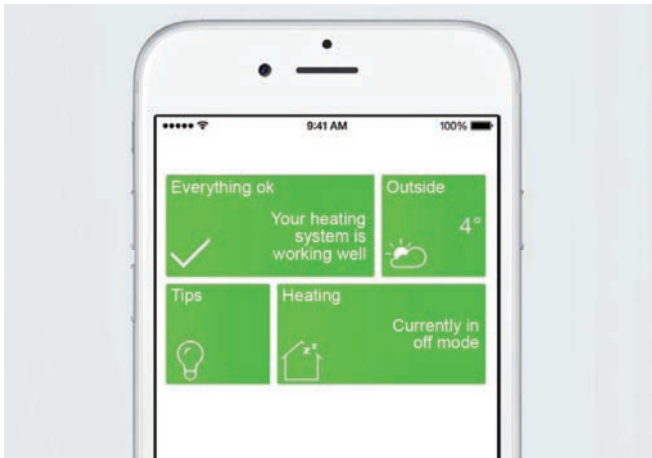

An App with many advantages - Viessmann cares 24/7

ViCare, the new App from Viessmann with easy to use comfort, safety and cost saving programs putting the homeowner in total control of their heating system.

The app has a built-in assistant to individually set timing programs, has displays showing operating statuses, push notifications direct to your installer e.g. faults & service and tips for cost saving operation.

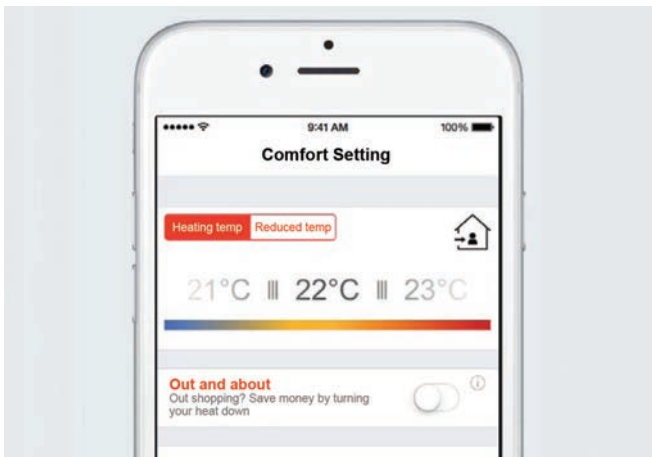

Security

The feeling of warmth and security

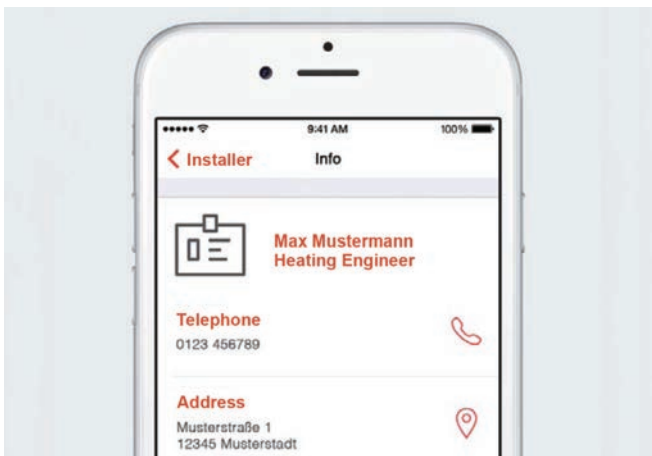

- See at a glance whether everything is in the Green area
- Yellow informs about a forthcoming service
- Red displays the direct link to your installer

Save Cost

Save money by adjusting the room temperature when you are not at home

- Easy, intuitive use
- Set your daily programme and save energy costs automatically
- Simply press a button on your Smart phone to adjust basic functions

Take care of any concerns

The direct link to your installer- just in case

- Add your installer details
- Quick and effective help - your installer has all the answers
- Carefree package in respect of security and service
